

Colocate: There's a reason thousands of UK Enterprises turn to Data Centres when it comes to hosting their technology.

Use our Data Centres to collocate your equipment in our secure and resilient hosting environment. This not only saves you the cost and complexity of building your own infrastructure, but also gives you peace of mind that your equipment is safe and secure with us.

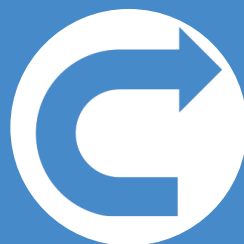

Security

Our ISO27001 accredited Data Centres are manned 24 hours a day, 7 days a week with strict access policies and swipe card entry systems.

Cost

Utilise our expertly built, managed and resilient facilities, saving you money and keeping your systems safe and online.

Flexibility

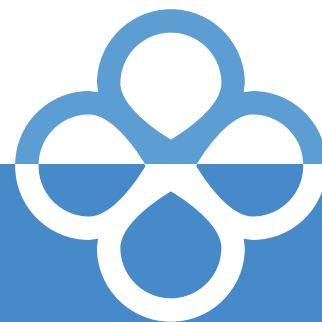

We have the control to create the exact environment to suit your needs.

Support

Our expert, on-site team offer a range of services from remote hands and eyes to assisting you with system migration.

"We are specialists in what we do and tailor our services and solutions to support what you do, it really is as simple as that..."

Data Centre Specification

As you can see in the table below we have built each Data Centre to a very high specification and meet the necessary standards for ISO27001 accreditation and can also assist you in attaining PCI compliance or conforming to the new government standard of 'Official'. In April 2014 the government replaced the Impact Level classification (IL2 and IL3) with the new 'Official' requirement for data security.

Capacity	Security	Power	Environment	Connectivity	Services
DERBY					
<ul style="list-style-type: none"> ✓ 6500 ft2 ✓ 330 Racks ✓ 4 Data Halls 	<ul style="list-style-type: none"> ✓ Perimeter Fencing ✓ CCTV ✓ Photo ID ✓ 24/7 Manned Security ✓ ISO27001 	<ul style="list-style-type: none"> ✓ 2.5 MVA Power ✓ N+1 Generator Backup ✓ N+1 UPS ✓ Full concurrent maintainability 	<ul style="list-style-type: none"> ✓ N+1 DX Cooling Air Conditioning ✓ FM200 Fire Suppression ✓ Full concurrent maintainability 	<ul style="list-style-type: none"> ✓ Dedicated Internet ✓ MPLS (PoP) 	<ul style="list-style-type: none"> ✓ Onsite Support Team ✓ Remote Hands and Eyes ✓ Managed Services Cabling

Data Centre's in Derby, Leeds, Northampton and Slough

Think colocation is for you?

It's a great way to save money whilst protecting your valuable data in a state of the art facility managed completely by us and looked after by certified and well trained technical engineers. With our sites open 24 hours a day, 7 days a week all year round you'll never struggle to access and maintain your kit, just like having your own facility only at a fraction of the cost and hassle free.
