Endurance in every environment

WHAT WE DO

Mavin Powercube design, build and maintain scalable and secure Containerised Modular DataCentres (CMDC's), modular datacentre buildings and tech solutions for deployment worldwide. Our award winning, British designed and built provision delivers a 100% bespoke, end-to-end solution, including full environmental preparation, power presentation, module fabrication, detailed project management and full support wrap services.

Featuring innovative, energy efficient and secure technologies

PRACTICAL, COST EFFECTIVE INNOVATION

Mavin Powercube has various design concepts incorporating a calculated balance between traditional, current and next generation ideologies. Referenceable within the Public and Private sectors, across University, NHS and Defence clients, our turn-key solutions are designed to maximise efficiency and space requirement and provide scalable, robust and resilient critical infrastructure environments, entirely tailored to our client's operational demands and featuring LPS 1175 security ratings and required Ballistic Standards.

Go anywhere, scaleable, secure, flexible, fully bespoke

BUILT FROM THE GROUND UP FOR 100% BESPOKE
FLEXIBILITY AND QUALITY

We fabricate every element from start to finish, combining the latest energy efficient composites with specific design requirements. Therefore supporting deployment agility, future scalability and fit-for-purpose operation. We have control over the quality of materials used and can tailor the solution to a wide range of uses and environments. Our state of the art UK build facility enables multiple projects to be managed within short timescales.

Discover Mavin's full range of Enterprise IT services and solutions.

ENTERPRISE IT SERVICES

Proactive, collaborative managed services and SLA matched multi-vendor support/maintenance wraps. Dedicated 365/24x7 Client orientated Help Desks.

Bespoke Enterprise IT Services

End-to-End Measured Support

DATACENTRE SERVICES

Scalable and secure Containerised Modular Datacentre solutions, Modular Datacentre Buildings and Datacentre Relocation services.

Bespoke Containerised DataCentres

DataCentre Relocation

ENTERPRISE TECHNOLOGY

Scalable and flexible, high performance technologies designed to meet the demands of large enterprise.

Turnkey Enterprise Solutions

Desktop to Datacentre

Frameworks

PUBLIC SECTOR FRAMEWORKS

Supporting organisations within local government and education sectors. We are suppliers of the Poise, YPO and Phoenix Framework Agreements.

DataCentre Solutions via compliant Frameworks

Open to all Public Bodies

MAVIN PROCUREMENT PORTAL (MPP)

Straight forward, measurable, flexible, one-stop procurement.

Revolutionary System

Public Sector Compliant

CLOUD SERVICES

Enterprise aligned fast, flexible, scalable and resilient Private and Public cloud hosted solutions.

Bespoke IaaS DaaS SaaS Solutions

Smart Simplified Computing

Referenceable Mavin Clients Include:

Home Office

HM Treasury
